

Child Friendly Spaces

What you will learn

Equip yourself with the skills to create safe, supportive environments for children in crisis. Learn to design and facilitate activities that promote resilience, inclusion, and emotional wellbeing.

Understand Child-Friendly Spaces

Grasp the purpose and principles of CFS in humanitarian and developmental contexts.

Support Children's Wellbeing

Recognise the importance of emotional safety, routine, and play in building resilience and recovery.

Design Child-Centred Activities

Plan and facilitate structured, age-appropriate sessions that meet children's psychosocial and developmental needs.

Course Duration:

8 Hours (1 Day)

Learning Objectives

- Develop an understanding on Child-Friendly Spaces (CFS) and explain their purpose in humanitarian and developmental contexts
- Explain the importance of emotional safety, routine, and play in supporting children's resilience and recovery

Learning Modules

Module 1 Understanding Child-Friendly Spaces (CFS)

Learn the purpose of CFS in humanitarian and developmental contexts, and the core principles of safety, inclusion, structure, and participation.

Module 2 Emotional Wellbeing and Psychosocial Needs of Children

Explore children's emotional and behavioural reactions in times of distress, and how emotional safety, routine, and play support resilience and recovery.

Module 3 Designing and Facilitating CFS Activities

Develop practical skills to plan and deliver structured, age-appropriate activities that meet children's psychosocial and developmental needs.
